Printinbar 7180A

Application: Strong Universality;For sheet-fed and packaging printing.

Technical Data
• Color : Blue • Surface Finish : Micro-ground and Polished • Roughness(Ra): 0.8-1.Opm
• Elongation : 1.0% • Thickness &Layer: 1.95 + 0.02mm (3ply) • Hardness (Shore A): 76-78° • Tensile Strength: 90N/mm
Micro-ground and Polished, Dot Reproduction and restore ability. The air cushion layer is finely polished,elastic compression, good shock absorption performance, better absorption and suitable for all kinds of paper printing.
